### Profile

Focused on creating usable, accessible, and user-centered digital experiences using mainly JavaScript technologies.

Proven **ability to collaborate effectively with cross-functional teams to deliver high-quality solutions** on schedule. Strong communication skills, able to effectively convey technical information to both technical and non-technical stakeholders, **resulting in successful project outcomes and improved team efficiency.**

Some of my highlighted projects prove my proficiency in developing professional web applications using technology stacks such as **Javascript ES6+, React, Node, Express, SQL & NoSQL** databases, and a wide range of tools and web technologies

### Professional Experience

#### CSS Code Generator

CSS code generator that provides visual help to obtain the code of the desired effect. Works for box-shadow, text-shadow and Glass Morphism.

React, React Router, Redux-Toolkit, Sass.

**Link to Project** 

#### Char-animation

npm package that splits the text of HTML elements into individual chars and applies animations to each one when the cursor hovers them.

Node.js, npm, ES6+, Babel.

**Linkt to Project** 

#### SoftAP-WiFi Credentials Manager

Software-enabled access point for ESP8266 & ESP32 development boards; It allows configuring the WiFi credentials and saving them into the SPIFFS memory, avoiding Hardcoding them.

React, Arduino/C++, API REST.
